
1 ADMIN Table

Stores admin users who manage the system.

Column	Meaning
id (PK)	Unique ID for each admin
username (UK)	Unique login username
password_hash	Encrypted password
full_name	Admin full name
email (UK)	Unique email ID
role	Admin type (e.g., ADMIN, TPO)
created_at	When admin account was created
updated_at	Last update timestamp

2 STUDENT Table

Stores student information.

Column	Meaning
id (PK)	Unique student ID
university_roll_number (UK)	Unique university roll number
name	Student full name
email (UK)	Student email
department	Branch/Department
branch	Specialization
batch	Graduation year batch
dob	Date of birth
cgpa	Academic CGPA
contact_no	Phone number

Column	Meaning
gender	Gender
password_hash	Encrypted login password
created_at	Account creation time
updated_at	Last updated time

COMPANY Table

Stores company details.

Column	Meaning
id (PK)	Unique company ID
name (UK)	Company name
industry	Industry type (IT, Finance, etc.)
website	Company website
address	Company address
hr_contact_name	HR person name
hr_contact_email	HR email
hr_contact_phone	HR phone
is_approved	Whether company is approved by TPO
created_at	Record creation date
updated_at	Last update date

MOU Table

Memorandum of Understanding between college & company.

Column	Meaning
id (PK)	Unique MOU ID
company_id (FK)	Linked company

Column	Meaning
file_path	MOU document file location
signed_date	Date MOU signed
remarks	Additional notes
created_at	Creation timestamp
updated_at	Last updated timestamp

5 PLACEMENT_DRIVE Table

Stores details about each placement drive.

Column	Meaning
id (PK)	Drive ID
company_id (FK)	Company conducting drive
title	Drive title (e.g., Software Developer Hiring)
description	Job details
drive_date	Date of drive
venue	Location
is_published	Whether drive is visible to students
is_active	Whether drive is currently open
brochure_file_path	Job brochure file
registration_open	Registration start
registration_close	Registration end
created_at	Created date
updated_at	Updated date

6 ELIGIBILITY_RULE Table

Defines eligibility criteria for a drive.

Column	Meaning
id (PK)	Rule ID
drive_id (FK)	Related drive
min_cgpa	Minimum CGPA required
allowed_branches	Eligible branches
min_backlogs	Minimum allowed backlogs
max_backlogs	Maximum allowed backlogs
gender_restriction	Gender-based restriction (if any)
min_batch	Minimum passing year
max_batch	Maximum passing year
other_criteria	Extra conditions
created_at	Created timestamp
updated_at	Updated timestamp

7 STUDENT_APPLICATION Table

Stores applications submitted by students.

Column	Meaning
id (PK)	Application ID
student_id (FK)	Student who applied
drive_id (FK)	Drive applied for
applied_at	Date of application
application_status	Current status (Applied, Eligible, Shortlisted, Selected, Rejected, On Hold)
is_active	Whether application is active
feedback	Feedback from recruiter
created_at	Created time
updated_at	Last updated time

APPLICATION_STATUS Table

Stores round-wise status updates.

Column	Meaning
id (PK)	Status record ID
application_id (FK)	Related student application
round_no	Interview round number
status	Shortlisted, Rejected, Selected, On Hold
remarks	Interview remarks
status_date	Date of status update
created_at	Created timestamp
updated_at	Updated timestamp

REPORT Table

Stores generated reports.

Column	Meaning
id (PK)	Report ID
drive_id (FK)	Related placement drive
generated_by_admin_id (FK)	Admin who generated report
file_path	Report file location
generated_at	Report generation date
created_at	Created timestamp
updated_at	Updated timestamp

Relationships Summary

- One **Company** → Many **Drives**

- One **Drive** → Many Applications
 - One **Student** → Many Applications
 - One **Application** → Many Status Updates
 - One **Drive** → One Eligibility Rule
 - One **Company** → One or More MOUs
 - Admin generates reports
-
